### Jim Geovedi

After making statistic about my name result in Google I notice that my privacy can no longer be achieved. So

unusual ways. Security is something

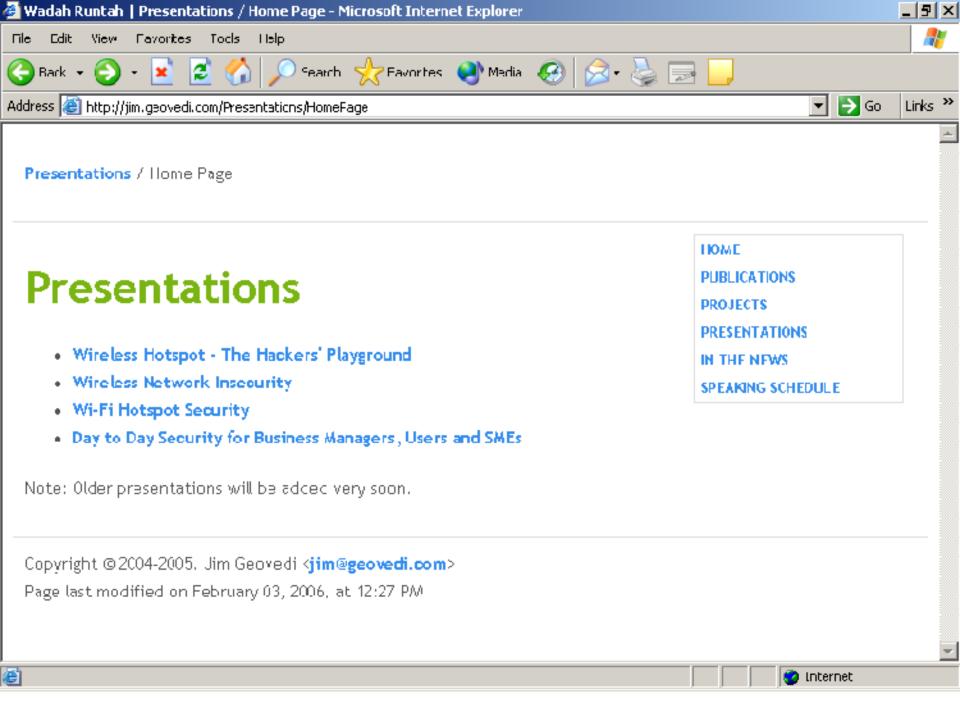

always found fascinating.

I decided to get more aggressive and tell something about myself.

I used to be an agnostic, but now 'm not so sure. Currently, I'm single (and looking). I'd prefer not to talk about politic. My sense of humor kinda dry and sarcastic. I smoke a lot and never trying to quit.
